About Me, a Story

When I first stepped into my college life and went through the stressful competition, I was always lack of self-confidence.Compared to my peers, I am ordinary.I have no outstanding skills like coding or good sports(though my basketball shooting skill can exceed most people).The most essential thing was that I was confusing, having no direction but a little ambition.

During my first year in SJTU, I thought over and over in pain and haze. Gradually it became clear for me to figure out what I want to do and I struggled being closer to my inner direction.

Now I am a sophomore in SJTU.I want to explore deeper and further and see the world.Although I am still lack of confidence, I have been trying to build up my inner power, to be stronger.

I am a fan of **Wangwen**,a Chinese Post Rock band.They became really famous recent years,but their songs hit my soul and accompany me through the up and down.Also, I love **Zhi Li**,who sings "Mr.Van Gogh".Sadly,He has been banned in China.

My motto is **"Hungry and Humble"**.However,I become used to saying another,**"Powerless,Ambitious"**.

This is Yanjie Ze.

Current position

Sophomore, Computer Science and Engineering, Shanghai Jiao Tong University

Education

Undergraduate, 2019.9-now

2019-2020	Major in Mechanical Engineering, Shanghai Jiao Tong University, China
2020-2020	Member of Zhiyuan Honors Program of Engineering, Shanghai Jiao Tong University, China
2020-2020	Member of Tsien Hsue-shen class, Shanghai Jiaotong University, China
2020-now	Major in Computer Science and Engineering, Shanghai Jiao Tong University, China

Research Interest

Computer Science; Computer Vision and Artificial Intelligence

Research and Project Experience

| 2020.3-2020.7 | PRP:Research on Character Recognition Based On Machine Vision, guided by Professor Yansong Zhang |

| 2020.11-now | Member of Machine Vision and Intelligence Group, short for MVIG, lead by Professor Cewu Lu |
| 2020.9-now | Member of Vision Algorithm Department, SJTU Robomaster team Jiaoloong |

Academic Performance

I really enjoy most of the courses in SJTU, and from my perspective, what I learned from these courses is more important than those scores I finnaly got.

First Year GPA: 3.89 (top 5%, 8/329)
First Year Comprehensive Evaluation: 91.2 (top 1%, 5/463)

Grants, honours & awards

2020.5	the Excellent League Member of Shanghai Jiao Tong University
2020.10	United Water Scholarship(Lianhe Shuiwu Scholarship),12000¥
2020.10	Municipal third prize for CUMCM

Skills

Programming

C++ (1K+LoC)
Python (4k+LoC,pytorch,numpy,opencv,etc)
Others like:html,latex,matlab

Sports

Basketball. Love shooting. Be a shooter.
Got 10 points in Freshman Cup (Fall 2019)

Publications & talks

None

Teaching Experience

2020.10-2021.1	Teaching Assistant in ME901:Engineering Practice Exploration and Research
2020.12	Academic Counselor in CS171:C++ Programming Language
